QA analyst I

?????

Job description

We are seeking a highly motivated and detail-oriented QA Manual Tester to join our growing team. As a QA Manual Tester, you will play a crucial role in ensuring the quality and reliability of our software applications through thorough testing, defect identification and communication across teams. Your work will help us deliver exceptional products to our clients and customers.

Although you will be employed by Bookandlink, the local subsidiary, your day-to-day work will be carried out in collaboration with the team at tripla, the parent company.

Please note that the salary range indicated on this page is shown as a gross amount before tax deductions.

Roles and Responsibilities

- Write and execute comprehensive test cases to validate features and functionality.
- Conduct manual testing of features/applications to identify defects and ensure functionality, design, usability, and compatibility.
- Collaborate with the development team to understand product requirements, provide feedback on potential issues.
- Document details of reported issues, track issues and test results, and communicate findings to the development team.
- Participate in the design and improvement of testing processes and procedures.
- Perform regression testing to ensure that previously identified defects have been resolved.

- Participate in regular meetings to provide updates and share insights on the current testing status

?????

Job Requirement

- Effective communication skills in English are required, and the ability to communicate in Japanese would be considered an advantage
- Ability to collaborate effectively with team members
- Approach tasks with a methodical yet flexible mindset
- Being observant and curious, with a proactive approach to identifying potential risks
- Familiarity with tools such as Jira, Confluence, MySQL, Excel, Postman, and Dev tools would be considered an advantage.

Other Information

Benefits

- Opportunity for Learning: You'll find an excellent environment for those interested

in learning code at the beginner stage.

🔗**Strengthened Skills:** Enhance your logical thinking and improve your communication skills.

🔗**Enhanced Problem-Solving:** Develop the ability to detect and prevent unusual issues in advance.

🔗**Dynamic Team:** Be part of a passionate and enthusiastic team, where you'll work alongside with colleagues from diverse cultural backgrounds, contributing to a rich company culture.

🔗**Respected Opinions:** Your opinions matter here. We take everyone's input seriously, so your voice will be heard.

🔗**No IT Background Required:** We welcome individuals eager to learn coding, even if they have no prior IT-related experience. You won't be alone; some of us started from ground zero as well.

🔗**Diverse Project Exposure:** You'll have the chance to work on a wide range of projects. This diversity allows you to gain experience in various aspects of software development and learn different software testing tools and techniques.

Interview Process: After successfully passing the initial resume screening, you will proceed to the interview phase, where you will have the opportunity to get to know our company, products, and working environment more intimately.

Here's what you can expect during the interview process:

1. Company Introduction: We'll provide you with a comprehensive overview of our company, our mission, and the products we develop. You'll have the chance to ask any questions you may have about our organization.

2. Candidate Introduction: You'll be asked to give a brief introduction of yourself, highlighting your background, experiences, and what drives your interest in the role.

3. Technical Assessment: As part of the interview, you will be given a test to assess your technical skills and problem-solving abilities related to the QA Manual Tester role. This test will help us understand your practical knowledge and your approach to real-world scenarios.

4. Question and Answer: You are encouraged to ask any questions you have about the role, our team, or the company. We value open and transparent communication, and this is an opportunity for you to learn more about us as well.

*Please note that after the final interview, we will conduct a reference check by contacting your former supervisor and colleagues with whom you have previously worked.

Our goal is to ensure that both you and our team are the right fit for each other. We value your time and effort throughout the interview process and aim to provide a comprehensive understanding of the role and our expectations. We look forward to meeting you and exploring the possibility of you joining our team.
